

I would greatly appreciate your help in distributing this announcement for a Postdoctoral Research Position at Beijing Academy of Agriculture and Forestry Sciences, China. The successful candidate will be mainly working on simulating crop yield, greenhouse gas emissions and soil organic carbon under various cropping systems and climate conditions based on process-based models and machine learning.

Qualification requirements:

- PhD in soil science, agroecology, agronomy or related field
- Obtain PhD degree within 3 years
- No more than 35 years old
- Experience in data analysis and process-based modelling
- Experience in R software
- Documented ability to publish high-quality scientific papers
- A strong command of oral and written English

Salary and benefits:

- A salary of 78,8 00 USD per year
- An apartment is provided during the postdoc research period

Application:

- Cover letter
- CV and list of publications
- Certified copy of doctoral certificate
- Two letters of recommendation
- Other documents that you want to invoke

Please send your application materials to **Dr. Wentian He** (wentian_he@hotmail.com). The last day to apply is **May 31, 2022**.

With best regards,

Wentian He, PhD
